

# Let's Start A Conversation About Diabetes- Webinar on 17 Aug 2020

## FEEDBACK

We did it (Aruni)

Congratulations to Shubha Kumar Dr Aksheya Kumar Founders of India Club on hosting fantastic session on Beat Diabetes Together! The session was very useful! Thank you to Dr Michelle Byrne Hills Shire Mayor, Nimeesha Gupta Indian Consulate General of Sydney, Dr Rajini Jayaballa, Prof Vicki Flood on sharing great Diabetes information to our beautiful community. Well done everyone! Friends, I have tried to capture as much as useful slides from session for you all! Stay safe! Stay healthy! Sending hugs and love! Brighter Stellar Inc (Pratibha)

It was a fabulous webinar today! So glad I participated (Swati Mishra)

The webinar was very enlightening and informative with health talks, food demonstrations, Questions & Answers sessions etc Tiya

I did enjoy the webinar it is quite useful. (Ratnakumar)

It was very informative and eye opener. I would love to register again if there would be another webinar in regards health and wellbeing (Mercedes)

Thanks, so much for giving me the opportunity to hear this excellent presentation. My motivation was to get some ideas on how to help the Asylum Seekers with ways to prevent the onset of diabetes. Please keep us informed (Noeline)

Thank you for that lovely session (Chan)

Quite an interesting & impressive session (Lalitha)

Thankyou Shubha Ji for initiating this talk. It was great watching the food demo and understanding the diabetes implications (Nimeesha)

Thank you so much for the feedback – it is very pleasing to hear that has been a helpful way of talking about this important topic. I would also like to echo Rajini's sentiments – the leadership you are providing is terrific. I am looking forward to connecting in with next steps. (Prof Vicki –Speaker)

Thank you for having us and hosting a fantastic virtual event. You are doing a fabulous job of leading the way in helping to beat diabetes in the community. (Dr Rajini – Speaker)

Shubha you are very talented. It is never easy to get people with quality and have a programme, even in this restricted time. I now don't work. Will talk to you soon. It was very commendable to have this issue discussed. Indian subcontinent is one of the highest number of people with Diabetes 2 and it is mainly thanks to our sweets made from milk and ghee and sugar! Recipe for disaster! Dr Surekha

Aishverya

Very good information. A bit too long. 1 hour session is enough. (Sandra)
